

ARNNAB TRIPATHY

+91 7978101072 ✧ Bhubaneswar, Odisha, India

arnnab.arnnab@gmail.com ✧ www.linkedin.com/in/arnnabtripathy55/ ✧ github.com/Oblivion-2k ✧ [portfolio](#)

OBJECTIVE

Computer Science graduate with strong technical and problem-solving skills, seeking an entry-level opportunity to apply my knowledge, develop new skills and contribute effectively to the organization.

EDUCATION

Bachelor of Technology in Computer Science, SOA University | CGPA: 7.43 2021 - 2025

Higher Secondary Education(+2 CBSE), Kendriya Vidyalaya No.1 | 74.4% aggregate 2017 - 2019

Secondary Education (10th CBSE), Kendriya Vidyalaya No.1, Bbsr | 91.2% aggregate 2016 - 2017

SKILLS

Technical Skills

Programming Languages	Java, Python
Web Development	HTML, CSS, React.js, Spring Boot
Databases	MongoDB, SQL
Machine Learning and AI	Scikit-learn, TensorFlow, Supervised Learning, CNNs, LSTMs
Tools	IntelliJ IDEA, Postman, Git, Jupyter Notebook, Github
Operating Systems	Windows, Ubuntu

PROJECTS

Dynamic Project Management Board

React.js, Node.js, GraphQL, Apollo Server, MongoDB, WebSockets, JWT

- Designed and implemented a real-time Kanban-based project management platform leveraging GraphQL subscriptions and WebSocket communication for seamless multi-user synchronization. .
- Developed secure authentication and authorization workflows using JWT and role-based access control (RBAC), with optimized MongoDB schemas and indexed queries for improved performance.
- Structured a modular, scalable backend architecture using Apollo Server.

Cognitive Workload Assessment using EEG and Deep Learning

Python, MNE, NumPy, Pandas, TensorFlow, Scikit-learn

- Built an end-to-end EEG workload classification pipeline using STEW dataset with structured preprocessing and feature engineering.
- Applied bandpass filtering, sliding window segmentation, and time-frequency analysis for signal enhancement.
- Achieved 89% accuracy using 1D-CNN and 88% using Bi-LSTM with k-fold cross-validation and robustness evaluation.

ACHIEVEMENTS AND CERTIFICATIONS

- Solved over 150 problems on platforms like CodeForces, LeetCode and GeeksforGeeks.
- Data Structures and Algorithms (GeeksforGeeks).
- Web Development Bootcamp (Udemy).
